Congratulations!

You have successfully installed FUDforum and are now well on your way to building a vibrant community that you and your members can enjoy for years to come.

Empty forums can look a little bare at first, but as you add content, they'll quickly come to life. We recommend enabling a WYSIWYG editor plugin right away and, optionally, an OAuth plugin to make user registration easier for your members.

To help you get started, please read the documentation on our wiki. If you run into any problems or have questions, please visit the support forum and let us know.

When you're ready, log in and head over to the Admin Control Panel to start configuring your forum and making it your own.

Thank you for choosing FUDforum.

Enjoy!
The FUDforum Team
